

# LUQMAN AHMAD

## GIS Analyst

[luqman439@live.com](mailto:luqman439@live.com)

+92-341-0611207

Passport No.: JV1178152

Nationality: Pakistani

Marital Status: Single

Date of Birth: 20-09-1996

Address: Islamabad, Pakistan

### OBJECTIVE:

As a GIS Analyst, I bring a friendly and approachable attitude to all my interactions. My excellent communication and conflict resolution skills enable me to work well with others and foster strong, united teams. I'm always attentive to the needs of my colleagues, striving to create a positive work environment where everyone feels appreciated.

### PROFESSIONAL EXPERIENCE:

#### **GIS Developer** ----- (June 2023 – Present)

##### **Kohistan Builders & Developers, Islamabad, Pakistan** ([www.kbd.com.pk](http://www.kbd.com.pk))

- Demonstrated expertise in accurate map digitization, seamless map mosaicing, and skillful superimposition of GIS maps on Google Earth imagery, ensuring precise representation and providing valuable real-world context.
- Develop and implement efficient processes to create and publish GIS data on a web map.
- Ensure the production of high-quality GIS maps for reports, presentations, and field use.
- Collaborating with stakeholders to meet specific requirements.
- Establish and maintain effective communication with the CEO, providing regular progress reports on mapping projects and coordinating tasks as required.

#### **GIS Developer** ----- (January 2022 – June 2023)

##### **Future Development Holdings (Pvt.) Ltd. (FDH) Islamabad, Pakistan** ([www.fdhpk.com](http://www.fdhpk.com))

- To assist in geospatial data analysis, developing GIS applications, and maintaining a record of spatial datasets using specialized software and tools.
- Responsible for managing solutions, delegating resources, and helping to ensure quality assurance principles are met across projects and deliverables.
- Deploy and manage the data and information management workflows and processes to build the reliable, sustainable and trusted system of records.
- Created thematic maps to present, organize and categories survey data.
- Produced charts and maps for use in construction planning and navigation.
- Prepares complex custom maps for display from digital data using GIS mapping software and computer input/output devices (scanner, GPS, plotter, printer, etc.).

#### **GIS Associate** ----- (April 2021 - January 2022)

##### **GreenAge Services – Rawalpindi, Pakistan**

- Maintains and continuously updates numerous relational databases containing geographic related and other relevant data sets across multiple servers.
- Utilizes GPS receivers and data loggers to collect field data and post process results to GIS.
- Creates and maintains GIS layers to ensure spatial and temporal accuracy and produces hard copy or PDF maps.
- Assists in digital organization, inventorying, and locating maps to ensure accessibility.
- Interprets aerial imagery to identify infrastructure and natural features to update database maps.

### Skills

- Remote Sensing
- Spatial Analysis
- Data Analysis
- Data Management
- Overlay Analysis
- Change Detection
- Land Suitability
- Cartography
- 3D GIS
- WebGIS
- Leaflet Mapping
- GNSS Survey
- Mobile Survey
- Project Planning

### Operating Software

- ArcGIS
- AcrScene
- ERDAS Imagine
- QGIS
- ArcGIS Pro
- Google Earth Pro
- Global Mapper
- AutoCAD
- Illustrator
- Photoshop
- MS Office

### Qualities

- Strong IT Skills
- Problem Solving
- Independency
- Positivity
- Pressure Handling
- Team Work
- Confidence

## **GIS Internee ----- (February 2020 - February 2021)**

### **Pakistan Metrological Department – Islamabad, Pakistan**

- Conducted drought analysis of the Thar District using NDVI and SIF for vegetation health and drought monitoring.
- Performed spatial data analysis, raster masking, and multi-layer GIS operations to ensure accuracy.
- Utilized Google Earth Engine (GEE) for vegetation indices and environmental monitoring.
- Developed and maintained GIS layers, thematic maps, and visualizations for reports and presentations.
- Applied remote sensing techniques for land use classification, change detection, and trend analysis.

## **EDUCATION:**

### **Bachelor of Science (Geo-Informatics) ----- (October 2017 - August 2021)**

#### **Arid Agriculture University, Rawalpindi, Pakistan (<https://www.uaar.edu.pk>)**

##### **Geographical Information System (GIS) and Remote Sensing**

Current Updated GPA 3.32/4.0

Served as the Class Representative throughout my undergraduate studies, demonstrating strong leadership skills and effective communication abilities while fostering positive relationships with classmates, faculty, and administration.

Actively participated in different research and semester projects. The final year project was "Assessment of potential site selection for rainwater harvesting using multi-influencing factors (MIF) and GIS"

## **CERTIFICATION:**

### **Basic IT Literature**

July 01, 2017 – September 30, 2017

**Vocational Training Institute (VTI)**, Jhang, Pakistan ([www.tevta.gop.pk](http://www.tevta.gop.pk))

### **GIS Surveyor**

July 02, 2018 – September 30, 2018

**Punjab Skills Development Fund (PSDF)**, Lahore, Pakistan ([www.psdf.org.pk](http://www.psdf.org.pk))

## **ACADEMIC PROJECT:**

- Assessment of potential site selection for rainwater harvesting using multi-influencing factors (MIF) and GIS (Final year project 2021)
- Determine Change Detection of Potohar Region using GIS and Remote sensing (Semester Project 2020)
- Suitability analysis to find location for waste disposal using overlay analysis: a case study of Jhang (Semester Project 2019)
- Assessment of Flood Hazard using Image analysis technique in District Jhang, Pakistan (Semester Project 2019)
